Honesty® Potato Pack Stewardship Form

BASF Agricultural Solutions believes it is important to follow good stewardship guidelines regarding the application of tuber treatments to potato seed tubers. To help growers maximise the efficiency of fungicide treatments and assist with record keeping, we have set out this document as a record of good practice regarding the application of the Honesty® Potato Pack.

Before application, we suggest reading the SRUC SAC consulting Potato Storage Diseases management guide available here: <https://www.agricentre.basf.co.uk/potato-storage-diseases>.
